Career Profile

Master of Engineering (Extension) candidate at UTS, majoring in geotechnical Engineering, with prior experience in structural design and design coordination in China. Proficient in AutoCAD and PKPM, with hands-on experience supporting engineering drawings and developing structural models using PKPM-BIM. Strong in technical documentation, cross-disciplinary communication, and driving design processes from planning to site coordination. Currently expanding technical focus towards transport infrastructure, particularly road and pavement engineering, with strong interest in transport consulting and long-term infrastructure delivery.

Education

Master's degree in Engineering (Extension)

University of Technology Sydney (AU)

July. 2024 - June. 2026(Expected)

Majored in Geotechnical Engineering

Academic Honour: Dean's List 2025 – Faculty of Engineering & IT

Selected Coursework: Pavement Analysis and Design (in progress), Road Engineering Practice (in progress), Traffic and Transportation, Applied Geotechnics, GIS

Master's degree in Civil Engineering and Environmental Science

University of Liverpool(UK)

Sept. 2016 - Dec. 2017

Graduated with Merit

Final Project: PEKK Powder Deposition on Glass Fibre

Bachelor's degree in Geotechnical and Underground Construction Engineering

Chongqing Jiaotong University

Sept. 2010 - June 2014

Final Project: The Structural Design of Wenchangge Tunnel

Bridge Program in Language and Science

Liverpool International College

Feb. 2015 - June 2016

Work experience

Tramix Pty Ltd.

Office Intern

Dec. 2024 - June.2025

- Assisted quantity take-offs for facade engineering drawings in Sydney-based projects, ensuring accurate measurement and data entry.
- Supported engineering team in reviewing project drawings.
- Used CAD to assist in interpreting and verifying drawing dimensions.

Guangju Lianfeng Architecture Design(Chongqing)Co., Ltd.

Designing Project Manager

Sep. 2019 - July.2024

- Directed the design process management for two projects (approximately 20,000 and 6,000 sq.m. GFA).
- Oversaw project planning, facilitated communication among designers, developers, construction managers, and governmental institutions, and drove the comprehensive process of design, construction site inspection, and resolution of multifaceted issues that arise throughout projects.

- Established the cohesive BIM group team aimed at advancing and promoting BIM techniques in alignment with the mandates of the Chinese government and the evolving needs of the industry.
- Participated in project bidding, prepared technical bid documents and conducted technical clarifications.

Chongqing Hemei Architecture and Planning Design Co., Ltd.

Structural Designer

June 2018 - Aug. 2019

- Completed the structural design for three projects, as the primary person in charge.
- Organized and oversaw the construction drawing design process, reviewed design task book and professional design schemes, as well as preliminary design documents.
- prepared project technical specifications and developed drawings of blueprints.
- Handled the review of engineering changes during construction and addressed technical issues.

Structural Designer Intern

Dec. 2017 - May 2018

- Assisted in completing technical documentation, and conducted technical briefings.
- Responsible for on-site technical services, providing technical support for engineering, cost, and procurement to ensure the smooth progress of project production and design work.

Structural Designer Intern

July 2014 - Jan 2015

- Utilized engineering software such as AutoCAD and PKPM to complete the structural component drawing design, such as beam reinforcement drawings, retaining wall, etc.

Qualification Certificate

Chinese National Qualified Medium-Level Engineer (Subject in Structural Engineering)

International & Community Engagement

-
- UTS FEIT Representative, International Strategic Management Workshop at Poznan University of Technology (Poland, 2025).
 - UTS BUILD Program – Global leadership and cross-cultural engagement.
 - UTS SOUL Award – Community leadership recognition.
 - Volunteer, City of Sydney New Year's Eve 2025 – Supported large-scale public event operations and crowd guidance.
 - Volunteer, NSW International Student Volunteer Program (3 months).
